Reflections from the Desk of

Dr. Lalit K. Panwar

Chairperson

A Message from the Chairperson of Vivekananda Global University, Jaipur

“

In our pursuit of excellence, we firmly believe that education cannot exist in isolation from society. Our commitment extends beyond academics, embracing creative and compassionate engagement with social change. We see universities as powerful catalysts, capable of addressing the pressing challenges faced by our communities and the wider world.

Chairperson

Chairperson

Excellence, for us, is not confined to academic rigor alone. It encompasses the holistic development of our students—nurturing their creativity, critical thinking, and instilling a strong ethical foundation. We aspire to graduate individuals who are not only knowledgeable but also kind, socially responsible, environmentally aware, and adaptable to diverse situations.

I extend my heartfelt gratitude to our dedicated staff, whose tireless efforts bring forth the stories and insights that matter. Our passion and commitment are truly commendable.

Dr. Lalit K. Pawar

At VGU Vivek Magazine, we weave together the vibrant tapestry of campus life, keeping our community informed, inspired, and connected. We believe the magazine plays a vital role in fostering pride and belonging among students, faculty, alumni, and all who are part of the VGU family.

Reflections from the Desk of

Dr. K.R. Bagaria
Vice-Chairperson

A Message from the Vice-Chairperson of Vivekananda Global University, Jaipur

“Vivekananda Global University remains steadfast in its commitment to delivering high-quality education, fostering impactful research, and promoting innovation that enhances the human experience. Through rigorous academic programs and the unwavering dedication of our faculty, the University continues its pursuit of excellence, equipping students with the knowledge, skills, and values needed to address the complex challenges of an ever-evolving global landscape.”

Vice Chairperson

Vice Chairperson

The academic session n2025–2026 has been particularly vibrant and dynamic, marked by enthusiastic student participation, interactive classroom discussions, collaborative learning practices, and strong teacher engagement, fostering an environment where students thrive intellectually, actively contribute, and benefit from peer-to-peer learning in a supportive setting.

Our mission is centered on facilitating holistic education through knowledge sharing, skill development, research, innovation, and entrepreneurial growth. We are dedicated to cultivating a campus culture that nurtures community spirit, intellectual curiosity, and cultural appreciation, ensuring that students grow not only academically but also personally and socially.

Dr. K.R.Bagaria

As we embrace interdisciplinary collaboration and advanced technologies, the University strives to lead the future of education. It is a pleasure to present the achievements of Vivekananda Global University in this edition of Vivek Magazine, and I extend my best wishes to all for continued success.

Reflections from the Desk of

Shri. M.R. Bagaria

Patron

A Message from the Patron of Vivekananda Global University, Jaipur

“

It gives me immense pleasure to extend my heartfelt greetings to all who are associated with Vivek Magazine. This publication has consistently upheld the values of knowledge, creativity, and critical thought, serving as a vibrant forum for writers, scholars, and readers alike. Vivekananda Global University is taking strides in global academia with its world class infrastructure and commitment to excellence in education.

Patron

In an age of rapid change, Vivek continues to remind us of the enduring power of ideas. Each issue reflects a commitment to intellectual inquiry, cultural dialogue, and ethical engagement with the world around us. I am proud to see the magazine nurture young voices while also celebrating established thinkers, thereby creating a bridge between tradition and innovation.

I wish to acknowledge the dedication of the editorial team, contributors, and readers whose collective efforts sustain this endeavor. May Vivek Magazine continue to inspire reflection, foster creativity, and strengthen the spirit of inquiry for years to come.

Shri.M.R.Bagaria

Vivek Magazine serves as a meaningful platform for thoughtful expression and academic engagement. By encouraging originality, dialogue, and ethical reflection, it enriches the intellectual environment of the university and nurtures inquisitive and responsible minds.

Reflections from the Desk of

Er. Onkar Bagaria
CEO

A Message from the Chief Executive Officer of Vivekananda Global University, Jaipur

“It Starts With You” is more than a tagline - it's a truth. The past year, our community did something remarkable. We created an ecosystem where students, faculty, staff, parents, alumni, and partners thrive. We didn't just run a university; we built a space where ideas are born, and magic happens. Our students secured placements with leading companies, proving academic rigor coupled with industrial relevance that resulted in career readiness. Over 360 startups were incubated, and 700+ ideas were supported. Faculty and students published papers, filed patents, and won research grants. We earned national and international recognition, validating our commitment to impact over rankings.

Chief Executive Officer

But it's not just about numbers. It's about you. Your achievements, big and small, make VGU special. The NCC cadet who marched on Republic Day, the NSS volunteer who served with heart, the teams who won hackathons and innovation challenges you showed us what's possible.

Our new infrastructure supports your ambitions: a new hostel, gym, study spaces, and auditorium upgrades. Our VGU One Portal and Alumni Portal kept you connected you 24/7.

Every brick, every digital tool, was built asking: "What does our student need to thrive?"

In the year gone by, the way you chose to attend that seminar, submit to that design challenge and applied for that research grant, or started that venture, left everyone mesmerized. We are here to support you - with labs, mentors, funding, and open hearts.

Er. Onkar Bagaria

It starts with you. Let's make the forthcoming year that will break new grounds and you will touch dizzy heights once again. The year you contributed. The year you discovered who you're capable of becoming. Arise! Awake! Take that step. We are ready.

Reflections from the Desk of

Prof. N.D. Mathur

President

A Message from the President of Vivekananda Global University, Jaipur

“

Vivekananda Global University has proved its devotion to excellence and commitment to higher education since many years. In pursuit of academic distinction, our leadership remains resolutely committed to fostering an intellectual milieu that nurtures critical inquiry, pioneering research, and creative innovation.

President

Our unwavering dedication to outcome-oriented education underscores the pragmatic application of knowledge, preparing our graduates to respond with agility to the dynamic challenges of society and the professional sphere. By nurturing over 13,000+ learners across India and beyond, VGU strengthens South Asia's educational landscape, bridging local traditions with global.

It is with profound satisfaction that I reaffirm our unwavering commitment to advancing excellence across academics, governance, administration, and outcome-driven educational initiatives. The continued success of Vivekananda Global University is built upon a strong foundation of best practices that consistently guide us toward high standards of achievement.

Prof. N.D.Mathur

It gives me great pleasure to share the University's landmark accomplishments in this Vivek Magazine, together with the accomplishments of the faculty, staff and students. I wish everyone all the best in their future pursuits.

“ The soul is not born, nor does it die.

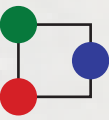

About our department

The Agri-Business Management Department offers a distinctive five-year integrated B.Sc. (Agriculture) + MBA program that effectively blends sustainable agricultural practices with contemporary business management concepts. The program is thoughtfully designed to provide students with a strong grounding in agricultural sciences, while simultaneously developing vital leadership, managerial, and analytical competencies. Agribusiness Management graduates have access to a wide range of career opportunities across the agricultural and allied sectors. They can work as agribusiness managers, where they oversee agricultural enterprises, manage supply chains and ensure overall profitability and efficiency. Many graduates choose to become agricultural consultants, offering expert guidance to farmers and agribusiness firms on improving productivity, sustainability, and business practices. Others pursue roles as marketing managers, focusing on promoting agricultural products and services, analyzing markets, and developing effective sales strategies. Careers as supply chain specialists allow graduates to manage the movement, storage, and distribution of agricultural products from farm to market.

Events & Activities

Guided by experienced and dedicated faculty, students gain valuable practical exposure through industrial visits, internships, fieldwork, and hands-on institutional activities. This balanced academic and experiential approach encourages innovation, strategic decision-making, and effective problem-solving skills essential for the evolving agri-business sector. In addition, the department places strong emphasis on career guidance and placement support, enabling graduates to explore higher education opportunities abroad, secure positions in reputed national and multinational organizations, or establish successful agri-based startups. Overall, the program prepares students to become competent professionals who can make meaningful contributions to agricultural growth, sustainability, and national development.

AGRI-BUSINESS MANAGEMENT

It is eternal and indestructible. ~ Swami Vivekananda

Moments of Excellence

Mr. Lalit Tiwari, a proud alumnus of the Agri-Business Management Department and a committed NSS volunteer at Vivekananda Global University, Jaipur, was honored with the prestigious My Bharat - NSS Award. The award was presented by the Hon'ble President of India, Droupadi Murmu, at Rashtrapati Bhawan. This national recognition celebrates his outstanding dedication to social service, leadership, and community development. His achievement reflects the spirit of service fostered by the department and stands as an inspiration for students to actively

About our department

The Department of Agriculture is committed to excellence in agricultural education, research, and extension activities. The department focuses on promoting sustainable farming practices, technological innovation, and experiential learning to equip students with the knowledge and skills required to address contemporary agricultural challenges. A strong emphasis is placed on hands-on training through field visits, laboratory work, and practical exposure to modern farming systems. Students actively participate in national and international conferences, research projects, and industry-oriented training programs that enhance their technical competence, critical thinking, and problem-solving abilities. The curriculum integrates scientific advancements with real-world applications, preparing graduates for diverse career opportunities in agriculture, agribusiness, research, and allied sectors. By nurturing innovation, environmental responsibility, and professional excellence, the department plays a vital role in strengthening food security, promoting sustainable development, and contributing to environmental conservation at both national and global levels.

Events/Activities

The Department of Agriculture organizes a wide range of academic and co-curricular events to promote experiential and outcome-based learning among students. These activities include international and national conferences, educational visits to leading agricultural research institutes, participation in Kisan Melas, field demonstrations, hands-on workshops, and specialized training programs. Through these initiatives, students gain valuable exposure to modern agricultural technologies, innovative farming practices, and recent research advancements. Direct interactions with scientists, industry experts, and progressive farmers help bridge the gap between theory and practice. Such platforms enhance students' understanding of real-world agricultural challenges, policy implications, and market dynamics. The department's focus on practical learning strengthens students' technical competence, confidence, and professional readiness. Overall, these diverse activities play a crucial role in nurturing skilled, informed, and industry-ready graduates capable of contributing effectively to the agricultural sector.

Agriculture

not till the goal is reached.

~ Swami Vivekananda

Moments of Excellence

The Department of Agriculture has achieved several moments of excellence that demonstrate its strong academic and professional standards. The department has successfully organized international conferences, providing a platform for global knowledge exchange and collaboration in agricultural sciences. It has also undertaken funded research projects addressing key issues such as sustainable farming, climate resilience, and productivity enhancement. Faculty members have earned prestigious awards for their outstanding contributions to teaching, research, and extension activities, further strengthening the department's academic reputation. Students have shown remarkable achievements by securing admissions to reputed institutions for higher education and performing well in competitive placements across agricultural and allied sectors. These milestones reflect the department's emphasis on practical training, research-oriented learning, and skill development. Overall, the achievements highlight the department's commitment to innovation, sustainability, and professional excellence in agricultural education.

VGU's practical training and supportive environment helped our daughter develop confidence, competence, and professional readiness.

Mr. Nandlal Saini

The Faculty of Agriculture offers holistic, career-focused education, and we are satisfied with our son's skills and **excellence**.

Department of

“ Education is the manifestation

About our department

The Design Department is a dynamic hub for creativity, innovation, and professional learning, offering industry-oriented programs that integrate design thinking, emerging technologies, sustainability, and hands-on practice. Its studio-based curriculum encourages experimentation, collaboration, and real-world application, enabling students to translate concepts into meaningful design solutions. Through live projects, research initiatives, workshops, and participation in national and international platforms, students gain exposure to contemporary design challenges and global best practices. The department fosters an interdisciplinary, practice-driven environment that promotes critical thinking, creativity, and innovation. Strong emphasis is placed on human-centered and socially responsible design, nurturing creative confidence, technical expertise, and ethical awareness, and preparing future-ready designers capable of addressing evolving societal and industry needs in a rapidly changing global context.

Events & Activities

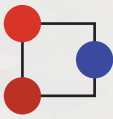

The Department of Design conducts a wide range of academic and professional activities aimed at innovation, and industry readiness among design and architecture students. Flagship events such as the ENTURPAN fashion showcase, and IDEASCAPE exhibition provide platforms for showcasing student creativity work. CODE also organizes international conferences, expert lectures, hands-on workshops, and live industry expose students to real-world design challenges and global perspectives. These initiatives encourage interdisciplinary collaboration, and critical thinking. By facilitating interaction with industry professionals in a practice-oriented environment, CODE supports the holistic professional development of students, equipping skills, confidence, and creative vision required to succeed in the dynamic and evolving fields of design and

Department of

“ You cannot believe in God

About our department

Ar. Mona Jhangra

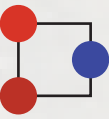

Head of The Department

The Department of Architecture & Planning offers a comprehensive, future-oriented education that seamlessly integrates design thinking, sustainability, technology, and practical learning. The curriculum is structured around immersive design studios that encourage creativity, critical inquiry, and contextual sensitivity, complemented by fieldwork, research, and live projects that bridge theory with real-world practice. Students are exposed to contemporary challenges such as urbanization, climate change, housing, and environmental resilience, enabling them to develop holistic and innovative solutions.

Emphasis is placed on interdisciplinary learning, digital tools, and emerging technologies to prepare graduates for evolving professional landscapes. Through engagement with communities, industry professionals, and academic research, the department fosters social responsibility, ethical practice, and professional competence. Graduates emerge as thoughtful architects and planners equipped to address complex urban, environmental, and spatial issues with creativity, technical

expertise, cultural awareness, and a strong commitment to sustainable and inclusive development. The Department of Architecture & Planning actively organizes a diverse range of academic and co-curricular activities that significantly enhance the overall learning experience. These include intensive design studios, hands-on workshops, educational site visits, expert lectures, STAMBH events, international conferences, the NASA India Research Conference, and curated student exhibitions. Together, these initiatives create a dynamic academic environment that effectively bridges theoretical knowledge with practical application, allowing students to engage with real-world professional contexts. Regular interaction with industry experts, researchers, and practicing architects and planners exposes students to contemporary practices, emerging technologies, and global perspectives. Such engagements help students strengthen design thinking, technical competence, research aptitude, and sustainability awareness. By encouraging teamwork, innovation, critical inquiry, and ethical responsibility, these activities support the holistic academic, creative, and professional development of future architects and planners, preparing them to address complex spatial, environmental, and urban challenges with confidence and responsibility.

Architecture & Planning

until you believe in yourself. ~ Swami Vivekananda

Moments of Excellence

The Department of Architecture & Planning has achieved notable academic and professional excellence through the successful organization of international conferences, six impactful seasons of STAMBH, the NASA India Research Conference, and FGBM. These platforms have fostered meaningful exchange of ideas, encouraged research culture, and strengthened engagement with contemporary architectural and planning discourse. The department has consistently motivated students to participate in national and international design competitions, resulting in significant global recognition and accolades that reflect the quality of teaching and innovation-driven learning environment. Strong collaborations with professional bodies, academic institutions, and industry experts have further enhanced curriculum relevance, practical exposure, and professional networking opportunities. These partnerships support internships, workshops, expert interactions, and knowledge-sharing initiatives. Collectively, these achievements reinforce the department's commitment to academic excellence, industry integration, research advancement, and the holistic professional development of future architects and planners equipped to meet global challenges.

“ The best way to find yourself

About our department

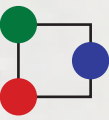

Dr. Pramod Kumar Faujdar

Head of The Department

Department of Civil Engineering is a dynamic academic unit established in 2013 with a strong commitment to excellence in education, research, and innovation. The department aims to nurture technically competent and ethically responsible civil engineers by imparting sound theoretical knowledge, practical skills, and professional values. It emphasizes outcome-based education, hands-on learning, and continuous skill development to prepare students for industry and higher studies. Over the years, the department has evolved into a Centre of Excellence in Civil Engineering and allied areas, promoting a culture of research, innovation, and sustainable development. Faculty members actively encourage students to engage in research projects, industry interactions, workshops, and outreach activities that address real-world challenges. The department also provides industry services and develops sustainable engineering solutions for societal needs. By fostering creativity, professionalism, and social responsibility, the Department of Civil Engineering strives to empower students to serve the nation and contribute meaningfully to infrastructure development and the betterment of society.

The Department of Civil Engineering organizes a wide range of events and activities to enhance students' academic learning, technical competence, and professional development. Regular industrial visits to construction sites, infrastructure projects, and industrial plants provide students with valuable real-time exposure to practical engineering applications, quality control measures, and project management practices. The department also conducts workshops on emerging technologies such as next-generation surveying methods, energy-efficient building design, and advanced civil engineering software, enabling students to develop industry-relevant skills. Expert guest lectures are frequently organized to guide students on career opportunities, higher education pathways, and current trends in the civil engineering field. In addition, awareness and outreach activities are carried out to promote social responsibility, environmental sustainability, and ethical engineering practices. Through these well-structured events and activities, the department effectively bridges the gap between theory and practice, fosters innovation and teamwork, and prepares

CIVIL Engineering

is to lose yourself in the service of others. ~ Swami Vivekananda

Moments of Excellence

The Moments of Excellence of the Department of Civil Engineering reflect its continuous pursuit of academic quality, innovation, and societal contribution. Over the years, the department has achieved distinction through the successful organization of industry-oriented workshops, expert guest lectures, and impactful industrial visits that enrich students' practical knowledge and professional readiness. Faculty members and students are actively engaged in research, consultancy, and sustainable development initiatives, addressing real-world engineering challenges. The department has developed strong industry and institutional linkages that support hands-on training, internships, and exposure to modern engineering practices. Students have demonstrated excellence by participating in technical competitions, outreach programs, and community service activities that promote ethical and socially responsible engineering. The effective integration of modern tools, advanced software, and innovative teaching methodologies has further strengthened learning outcomes. These moments of excellence highlight the department's commitment to nurturing skilled, confident, and Testimonials civil engineers who contribute meaningfully to infrastructure development and the betterment of society.

About our department

Events & Activities

The Computer Science and Engineering Department is one of the largest academic units of the university, established in 2013 and housed in a modern technological block. It offers B.Tech., M.Tech., and Ph.D. programs with a strong emphasis on fundamentals, innovation, industry relevance, and research excellence. Equipped with advanced laboratories, interactive classrooms, and robust industry collaborations, the department promotes hands-on and experiential learning. Participation in global conferences, research initiatives, and entrepreneurial activities enhances exposure and innovation. The department nurtures ethical values, problem-solving abilities, and lifelong learning, preparing skilled, adaptable, and future-ready engineers for evolving technological challenges.

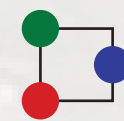

The Department actively organizes a wide range of events and activities to enrich academic learning and professional development. Regular industrial visits, hackathons, technical workshops, faculty development programs, and expert lectures ensure strong industry exposure and practical learning. Notable highlights include industrial visits to RCAT Jaipur, which offered students firsthand insight into defense research and advanced technologies. The department also conducted a national Faculty Development Program on Artificial Intelligence, promoting knowledge enhancement and research-driven teaching practices. Hosting the international conference “Computatia” provided a global platform for researchers, academicians, and students to exchange ideas and showcase innovations. In addition, coding competitions, project exhibitions, and hands-on training sessions encouraged problem-solving, teamwork, and creativity. These initiatives foster an innovation-driven, collaborative learning environment while strengthening technical expertise, research orientation, and industry readiness, contributing significantly to the holistic growth and professional excellence of students and faculty alike.

About our department

The Department of Development Studies has been established with a vibrant academic environment rooted in interdisciplinary learning, community engagement. The Department is committed to academic excellence, cultural learning and collaborative projects that further strengthens practical learning and holistic development of the students. This year was fruitful as many national and international speakers visited the department and provided hands on training to our students. Our students are engaged in impactful learning and research that can contribute to the development of the society at large.

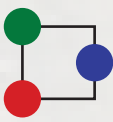

Events & Activities

Dr. Forrest M. Hoffman, a renowned geoscientist from USA, delivered an expert lecture on "AI for Sustainable Development: Optimizing Land Cover for India's Growing Population" on 04th February, 2025. Similarly, our students were able to attend yet another academic discourse by Professor Ms. Lisa Henderson, Head of the Department of Geography, York U.K. on 24th of September, 2025.

On 4th November, 2025 the Department hosted Korean Delegation comprising representatives from the Korean Ministry of Culture, Sports and Tourism, Seoul National University, and Deepalaya to promote academic collaboration and cultural understanding.

Since the department promotes an oeuvre of entrepreneurship, Mr. Malay Kumar, a renowned expert in entrepreneurship, delivered an expert session on "Unlocking Social Science Startups" on November 10, 2025. This session offered our students a unique opportunity to learn how to transform real-world problems into impactful startup ideas. To add momentum to the start-up culture within the department, Adv. Meera Lakshmi provided legal and procedural insights in matters of compliances vis-a-vis startups and entrepreneurship.

dEVELOPMENT STUDIES

of great faith, of great power, will change the world.

~ Swami Vivekananda

Moments of Excellence

The pride of our department rests in the students that outshine their predecessors in both academics and games. Our students Rajbhanwar Jadaun and Kumkum Rathore won double gold medals in No-gripping & Gripping championship 2025. Harman Bhullar won the Gold Medal in Wushu in State level Championship held at Mohali, Punjab. Similarly, Garvita Pokharna won the Gold Medal in National Youth Volleyball Championship in Delhi. From national quiz wins and international volunteer selections to award-winning essay performances, our students consistently demonstrate academic strength and holistic brilliance. Faculty innovations, interdisciplinary initiatives and experiential learning further highlight our commitment to quality, growth and meaningful societal contribution.

Proud Parents

Mr. Manoj Kumar Singh

VGU nurtures my child's growth with excellent learning and supportive guidance.

Mr. Naveen Jain

I am proud to see my daughter grow with VGU's guidance, values, and mentorship shaping her confidence.

Department of

Dr. Vijay Kumar Pandey

Head of The Department

“ The mind is everything;

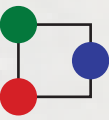

About our department

The Department of Electrical Engineering plays a vital role in developing skilled professionals who contribute to modern technology and infrastructure. The department offers strong undergraduate and postgraduate programs with a focus on power systems, electrical machines, control systems, power electronics, and emerging areas such as smart grids and automation. Well-equipped laboratories support practical learning and help students connect theory with real-world applications. Regular expert lectures, workshops, industrial visits, and project exhibitions enhance technical knowledge and career readiness. The department also emphasizes safety, innovation, and social responsibility through outreach programs on electrical safety and energy conservation. Faculty members guide students through mentoring, research activities, and hands-on projects, encouraging creativity and problem-solving skills. By maintaining high academic standards and industry-oriented training, the department prepares students to meet professional challenges and become competent engineers who can contribute effectively to society and the growing electrical engineering sector.

Events & Activities

The Department organizes a wide range of activities and events to support the academic excellence and overall development of students. Regular expert lectures and invited talks by industry professionals and academicians help students understand emerging technologies such as smart grids, IoT applications, automation, and power electronics, while also offering valuable career guidance. Workshops and hands-on training programs strengthen practical skills and bridge the gap between theory and real-world applications. Industrial visits to power plants, substations, and manufacturing units provide exposure to industrial practices and safety standards. The department actively hosts national-level project exhibitions, encouraging innovation, teamwork, and creative problem-solving among students. Technical competitions, seminars, and student-led activities enhance confidence and leadership skills. In addition, social outreach programs on electrical safety, energy conservation, and community awareness promote social responsibility. Wellness initiatives and extension activities further contribute to holistic student development, making departmental events educational, engaging, and impactful.

Electrical Engineering

what you think, you become.

~ Swami Vivekananda

Moments of Excellence

The Department has witnessed several moments of excellence that reflect its academic strength and student achievements. Highlights include successful organization of national-level project exhibitions, where students demonstrated innovative and practical solutions. Students have actively participated in technical competitions, seminars, and expert lectures, gaining recognition for their performance and creativity. Faculty guidance, well-equipped laboratories, and industry interaction have contributed to these accomplishments, creating a culture of innovation, discipline, and continuous improvement within the department.

“ Education is not the amount of information

About our department

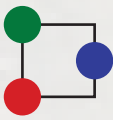

The Department of Forensic Science is dedicated to advancing the pursuit of truth through scientific excellence and innovation. With a strong commitment to education, research, and professional integrity, the department prepares students to become skilled forensic experts capable of contributing to the criminal justice system. Through hands-on training, modern laboratory practices, and interdisciplinary learning, we strive to develop analytical minds that uphold justice, accuracy, and ethical responsibility in every investigation.

Events & Activities

MYSTERA 3.0, 2025 Mystera is an annual event organized by the Department of Forensic Science to commemorate Forensic Week. It features competitions, guest lectures, and hands-on workshops that encourage active participation. The event helps students strengthen practical skills, gain insights from industry experts, and explore real-world forensic applications. Mystera promotes learning, creativity, and innovation while fostering collaboration, enthusiasm, and a strong sense of academic and professional community among students through inclusive activities, teamwork, ethical awareness, problem-solving, confidence building, and experiential academic enrichment opportunities.

forensic science

that is put into your brain, but the life force that is put into it.

~ Swami Vivekananda

Moments of Excellence

In 2025, the Department of Forensic Science achieved notable success by winning Panache 2025 and the Best Department Award for excellence in academics and student engagement. The Head of the Department received the Best Faculty Award for exceptional leadership. The department also earned awards for Best Industrial Collaboration and Best Admissions, demonstrating strong industry partnerships and effective outreach. With student enrolments doubling, these accomplishments reflect the department's growing credibility, academic excellence, and reputation as a dynamic and trusted hub for forensic education and professional growth.

About our department

The Department of Hotel Management embodies VGU's vision of academic excellence, innovation, and global employability by offering a comprehensive, industry-oriented education in hospitality management. The department blends strong theoretical foundations with intensive practical training, enabling students to develop professional competence, leadership skills, and service excellence. Experiential learning is emphasized through state-of-the-art training kitchens, mock front office and housekeeping laboratories, internships, industrial visits, and continuous interaction with industry experts. The curriculum integrates contemporary hospitality trends, digital tools, entrepreneurship, and sustainable best practices to address the dynamic needs of the global hospitality and tourism industry. Supported by experienced faculty, modern infrastructure, strong industry linkages, international collaborations, and dedicated placement support, the department prepares graduates to pursue successful careers in hotels, resorts, airlines, cruise lines, tourism organizations, and allied service sectors across India and the world.

Events & Activities

The Department of Hotel Management regularly organizes a diverse range of academic and co-curricular events aimed at enhancing students' professional competence and overall development. These activities include national and international conferences, industry-focused workshops, expert guest lectures, seminars, and structured training programs that provide insights into current hospitality trends and global best practices. Culinary competitions, food festivals, theme lunches, and intercollegiate events foster creativity, innovation, teamwork, and practical skills among students. Regular interactions with industry professionals help bridge the gap between academic learning and real-world expectations, offering valuable exposure to operational standards and career opportunities. Through these events and activities, students develop leadership qualities, communication skills, confidence, and a professional outlook. Collectively, these initiatives contribute to holistic development and prepare students to meet the dynamic challenges of the global hospitality and tourism industry with competence and professionalism.

Hotel Management

cultivate the heart and the mind.

~ Swami Vivekananda

Moments of Excellence

A significant moment of excellence for the Department of Hotel Management is its remarkable achievement in international placements, with more than 90% of students successfully placed abroad in reputed hospitality organizations. This milestone highlights the department's strong academic framework, industry-aligned curriculum, and effective integration of practical training with global standards. The achievement reflects the dedication of experienced faculty, robust industry partnerships, and continuous skill development initiatives that prepare students for international work environments. Extensive internships, professional grooming, language enhancement, and exposure to global hospitality practices further contribute to students' employability. This moment of excellence reinforces the department's reputation as a preferred destination for hospitality education and demonstrates its commitment to nurturing globally competent, confident, and industry-ready professionals capable of excelling across diverse international hospitality and tourism sectors.

“ Education is the manifestation of

About our department

The Department of Mechanical Engineering is committed to excellence in education, research, and innovation, with a strong focus on developing competent engineers equipped to meet modern technological challenges. The department emphasizes a balanced approach that combines a solid foundation in core mechanical engineering principles with exposure to emerging technologies and interdisciplinary applications. Through well-structured academic programs, research activities, and industry-oriented practices, students are encouraged to enhance their technical knowledge, analytical thinking, and problem-solving skills. Equal importance is given to curricular, co-curricular, and extra-curricular activities to foster leadership qualities, teamwork, communication skills, and managerial abilities. The department also strives to instill ethical values and social responsibility, motivating students to become aware, responsible citizens who contribute positively to society. With dynamic systems, experienced faculty, and a learner-centric environment, the department continuously works toward academic excellence, innovation, and meaningful service to the institute and the community.

Events & Activities

The Department of Mechanical Engineering at VGU organizes a variety of events and activities to enhance academic learning and overall student development in accordance with university norms. The department regularly conducts technical workshops, hands-on training sessions, expert lectures, and interactive seminars to strengthen students' practical knowledge and understanding of core engineering concepts. Industrial visits and internship opportunities are arranged to provide exposure to real-world industrial practices and emerging technologies. Research and innovation are promoted through project exhibitions, paper presentations, and participation in technical competitions and conferences. Co-curricular activities such as quizzes, design challenges, and team projects help develop analytical thinking, creativity, and teamwork. In addition, extra-curricular activities including leadership programs, community service, environmental initiatives, and cultural events support the development of communication skills, ethical values, and social responsibility. These activities collectively contribute to shaping well-rounded, skilled, and responsible Mechanical Engineering professionals.

Mechanical Engineering

divine perfection already in man.

~ Swami Vivekananda

Moments of Excellence

The Department of Mechanical Engineering has achieved several moments of excellence through academic achievements, research contributions, and student success. Faculty members have published quality research papers and actively participated in conferences and professional bodies. Students have excelled in technical competitions, project exhibitions, and innovation challenges, earning awards and recognition. Successful placements, internships, and higher education admissions further reflect the department's commitment to excellence and continuous improvement.

“Take upon idea, make that one idea your life,”

About our department

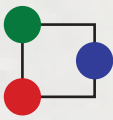

The Department of Allied Healthcare Sciences (Paramedical) is a center of excellence dedicated to skill-based education, diagnostic precision, and compassionate patient care. The department offers industry-oriented programs in Medical Laboratory Technology, Radiation and Imaging Technology, Operation Theatre Technology, and Ophthalmic Technology. With advanced laboratories, structured curricula, internships, industry collaborations, and community health initiatives, the department prepares competent, ethical, and industry-ready paramedical professionals to meet evolving healthcare demands.

Events & Activities

The Department of Allied Healthcare Sciences (Paramedical) actively organizes community-focused and academic events that support experiential learning and social responsibility. A key initiative is the free multi-specialty health camp held under the theme “Seva aur Samarpan,” in collaboration with hospitals and student clubs. Expert doctors from various specialties provided medical consultations, health screenings, and preventive care services to students, staff, and the local community. Wellness guidance and diagnostic support promoted awareness of healthy lifestyles and early detection. A panel discussion on health and wellbeing further emphasized preventive healthcare practices. These initiatives offer students valuable hands-on clinical exposure, enhance communication skills, and nurture empathy and professionalism. Through such efforts, the department reinforces its commitment to community service, healthcare awareness, and holistic student development.

Examination cell

The Examination Cell at Vivekananda Global University (VGU) plays a central role in maintaining the academic integrity and smooth functioning of all examination-related activities across the university. Operating under the Office of the Controller of Examination, this cell is responsible for planning and organizing internal and external examinations in accordance with the academic calendar. It ensures that the entire exam process—from creation of schedules to result publication—is carried out efficiently and transparently. A primary function of the Examination Cell is to prepare and display the examination timetable for all programmes, coordinating with various departments to avoid clashes and ensure proper allocation of resources. It manages the conduct of semester exams and back exams, coordinating invigilation and supervision to uphold fairness and discipline in exam halls. The cell also

In addition to routine exam duties, the cell facilitates other key academic activities such as smooth execution of re-evaluation and improvement examinations as per university regulations. It maintains confidentiality and accuracy in handling exam records, student credentials, and grade reporting, helping to uphold academic standards and student trust in the evaluation system. By ensuring well-structured examination procedures and timely communication of schedules and outcomes, the Examination Cell significantly contributes to VGU's academic excellence. Its systematic approach supports students' academic progression and reinforces the university's commitment to fair and transparent evaluation practices.

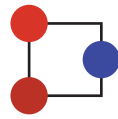

The Central Library, headed by Dr. Deep Singh and known as the Knowledge Resource Centre, has been comprehensively upgraded to support academic learning and advanced research. With a strong collection of around 60,000 books and subscriptions to over 75 national and international journals and magazines, the library serves as a vital academic hub. The university library system also includes specialized libraries catering to Law, Management, Pharmacy, Sciences, Technology, Architecture & Planning, Design, Journalism, and other disciplines, ensuring focused support for all of its services through the implementation of the academic programmes.

A key development in the library's modernization is the implementation of the KOHA Integrated Library Management System. This has enhanced efficiency in cataloguing, circulation, and metadata creation. The introduction of a complete automation and Web OPAC allows users to search library resources remotely 24x7 by author, title, subject, or ISBN, making access to information faster and more convenient.

To improve user management and security, an Automated Gate Entry Management System integrated with barcode-enabled ID cards has been introduced. The library also actively engages the academic community by organizing book exhibitions and webinars on important research Database such as Scopus, J-Gate, QuillBot Paraphraser and plagiarism management software. In addition, the Central Library provides modern facilities including a reading hall, digital library with 20 computers, Wi-Fi connectivity, photocopy services, enhancing NDLI, e-PG Pathshala, Shodhganga, Shodhgangotri, Shodhchakra, VIDWAN Portal, ITC Initiatives of educators, Book Exhibition, inter-library loan through DELNET, and access to rich e-resources. These initiatives collectively strengthen the library's role as a backbone of academic and research excellence at the university.

The Centre for Distance and Online Education (CDOE) at Vivekananda Global University has emerged as a dynamic hub of digital learning and academic outreach.

During 2025, CDOE India and three countries successfully expanded its reach to over 12,500 learners across 300 districts in

supported by robust digital platforms and structured academic processes.

CDOE actively promoted academic

enrichment through faculty development programmes, skill-building workshops, and expert

lecture series, covering areas in education, digital pedagogy, research writing, and career development.

More than 20 expert sessions featuring industry leaders and academicians exposure, industry awareness, and professional readiness by bridging the gap between academia and industry expectations. Alongside academics,

CDOE emphasized development through cultural, wellness, and national celebrations that fostered creativity, leadership, and emotional well-being.

With consistent academic quality, over 90% examination success rates, strong enrolment growth, effective learner support services, and innovative digital

pedagogy, CDOE continues to strengthen VGU's vision of inclusive,

accessibility, and technology-enabled higher education for learners across diverse regions and backgrounds.

for transforming ideas into impactful ventures by integrating innovation with academics, research, and industry engagement. The council supports 700+ unique ideas and innovations and organizes more than 170 innovation and entrepreneurship activities annually, including hackathons, ideathons, bootcamps, startup showcases, mentoring sessions, faculty development programs, and industry interactions. With over 50 trained Faculty Innovation Ambassadors, 110+ mentors, and 105+ academic

and corporate partners, IIC-VGU actively engages students, faculty, staff, and

IIC-VGU, led by Mr. Satish Kr. Jangid, works closely with the innovation centres—ACIC-VGU Foundation, VGU-TBI, VGU-RTBI—creating a strong pipeline from ideation to incubation, scaling. These centres have supported 360+ startups, raised over ₹100 crore of funding, and enabled numerous revenue-generating ventures aligned with national priorities and UN Sustainable Development Goals. With consistent national recognition, including high IIC star ratings and strong ARIIA performance, IIC-VGU continues to position VGU as a university-driven startup and innovation ecosystem, fostering job creation, entrepreneurs, and future global leaders.

IIC Cell

The Industry-Institute Interaction Cell (IIC) serves as a strategic bridge between academic learning and industry expectations. The cell is dedicated to strengthening collaboration with corporate organizations, startups, and industry experts to enhance students' employability, practical exposure, and professional competence. Through structured engagement, IIC aligns academic outcomes with real-world industry needs. IIC actively facilitates industry interactions, expert talks, guest lectures, and panel discussions led by professionals from diverse sectors. These interactions provide students with valuable insights into emerging trends, technologies, and workplace practices. Regular industry-driven sessions help learners understand career pathways, industry challenges, and skill requirements beyond classroom learning.

The cell, led by Dr. Dhiraj Singh, plays a key role in promoting internships, industrial visits, live projects, and collaborative research opportunities. By encouraging hands-on experience and experiential learning, IIC enables students to apply theoretical knowledge to practical scenarios. This exposure enhances problem-solving abilities, teamwork, and professional confidence among learners. Through sustained industry partnerships and career-oriented initiatives, the Industry-Institute Interaction Cell significantly contributes to VGU's mission of producing industry-ready graduates. Its efforts support innovation, entrepreneurship, and skill development, reinforcing the university's commitment to holistic education, career excellence, and meaningful engagement with the professional world.

Training AND PLACEMENT CELL

The Training and Placement Cell (TPC) of Vivekananda Global University plays a pivotal role in preparing students for successful professional careers. The TPC actively leverages the university's vision of academic excellence and industry relevance to bridge the gap between classroom learning and real-world expectations. At VGU, employability is treated as a core educational objective, supported through continuous training, mentorship, and structured career planning. The cell adopts a holistic placement philosophy that focuses not only on technical competence but also on communication skills, ethics, leadership, and interpersonal conduct. Through systematic pre-placement training, aptitude development, resume building, interview preparation, and corporate etiquette programs, students are groomed to meet evolving industry demands. These initiatives are integrated into the academic journey from the early stages of study with students' interests and long-term aspirations. Its sustained efforts contribute significantly to producing confident, industry-ready graduates and strengthening VGU's reputation as a career-focused, future-ready institution.

AIU
VGU
AADC

The AIU-VGU Academic and Administrative Development Centre (AIU-VGU-AADC), also established in 2023 at Vivekananda Global University in close collaboration with the Association of Indian Universities, represents a landmark initiative that stands in line with the National Education Policy 2020, reflecting VGU's long-term commitment to academic excellence, institutional quality, and national leadership in higher education. As one of the prestigious centres instituted by AIU across the entire country, the Centre actively holds a unique national stature and functions as a high-impact hub for capacity building, strengthening administrative professional development, and leadership enrichment within the higher education ecosystem of India.

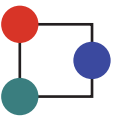

Under the visionary and dynamic leadership of Dr. Boola Choudhary, Centre Head, AIU-VGU-AADC is dedicated to empowering faculty members, academic leaders, and administrative professionals to effectively respond to the rapidly evolving demands, expectations, and challenges of contemporary higher education. Particular emphasis is placed on addressing the needs of hybrid, digital, and blended learning environments, ensuring that educators and administrators remain adaptable and innovative. The Centre regularly organizes advanced training programmes, capacity-building workshops, and comprehensive Development Programmes (FDPs) in both online and offline modes, with participation from institutions across the country.

The Centre's academic and professional development programmes emphasize on digital pedagogy, innovative instructional design, research methodologies, academic and research writing, quality assurance, and the development of high-quality e-content and Open Educational Resources (OER). In addition, focused attention is given to the adoption of teaching-learning approaches, outcome-based education, experiential learning, and the meaningful integration of emerging educational technologies, engagement and academic effectiveness. Through these initiatives, participants are encouraged to innovate, reflect, and continuously improve their professional practices.

AIU-VGU-AADC also plays a strategic and supporting role in the effective implementation of National Education Policy 2020 and the institutional quality enhancement of Indian Knowledge Systems. Alongside other centres developed by AIU, the Centre actively contributes to building, strengthening administrative governance, policy implementation, and organizational effectiveness. The Centre is also engaged in strategic initiatives and national academic leadership, and meaningfully contributes to the development of a higher education ecosystem that aligns with India's future aspirations and international benchmarks. The AIU-VGU-AADC actively promotes a culture of collaboration, networking, and knowledge exchange among higher education institutions, diverse regions of the country. By bringing together best practices from universities, colleges, and educational institutions, the Centre provides a platform for sharing best practices, addressing policy-level challenges, and collectively exploring innovative solutions to improve teaching, research, and institutional management. These professional practices not only enrich professional perspectives but also foster inter-institutional partnerships that contribute to the overall strengthening of India's higher education landscape. Furthermore, the Centre is committed to continuous improvement through systematic needs assessment and feedback-driven programme design aligned with national and global benchmarks. By integrating academic excellence with ethical

AIU-VGU-AADC

The SIDBI Swavalamban Chair at Vivekananda Global University, established under the SAHAS (SIDBI Assistance for Harnessing Aspiring Swavalambis) initiative of the Small Industries Development Bank of India, is a pioneering research-driven and action-oriented platform dedicated to strengthening and transforming India's Micro, Small, and Medium Enterprises (MSME) ecosystem. Conceived as a bridge between policy, academia, and grassroots enterprise, the Chair plays a vital role in advancing inclusive economic growth by empowering small businesses, nurturing entrepreneurship, and addressing region-specific challenges faced by entrepreneurs, strengthening local value chains, and enabling sustainable business practices among MSMEs. By integrating academic inquiry with on-ground interventions, the initiative supports evidence-based policymaking and practical solutions tailored to the needs of entrepreneurs operating in diverse socio-economic contexts. Special emphasis is placed on grassroots innovation, regional enterprise development, women and youth entrepreneurship, and the formalization and scaling of micro and small businesses. Led by Prof. Malvika Dudi Bagaria, Faculty Chair, the SIDBI Swavalamban Chair actively fosters solution-driven research, innovation, and capacity-building initiatives. Under her leadership, the Chair has successfully conducted more than 70 programs, workshops, training sessions, and stakeholder engagements, directly supporting over 30 startups and early-stage ventures. Through ideation grants amounting to more than ₹20 lakh, the initiative has enabled entrepreneurs to translate innovative ideas into viable business models. Close collaboration with MSMEs, startups, financial institutions, and government agencies has helped bridge critical gaps between academia, industry,

The Chair also actively supports funded research projects in emerging and high-impact domains such as precision agriculture, sustainable and renewable energy solutions, artificial intelligence-driven tools for MSME productivity, supply chain optimization, and the revival and modernization of traditional crafts and heritage industries. Its scholarly publications, policy briefs, and whitepapers—most notably contributions to the Rajasthan MSME Summit “Desert Bloom”—demonstrate strong thought leadership and a deep commitment to inclusive, region-focused, and impact-oriented entrepreneurship. These outputs serve as valuable resources for policymakers, practitioners, and academic communities alike. Through flagship and signature initiatives such as the Bagru Cluster Revival, aimed at rejuvenating traditional textile and craft clusters, and CODE RED Design-a-thon, which promotes design thinking and problem-solving for real-world MSME challenges, the SIDBI Swavalamban Chair exemplifies a community-centric and innovation-first approach. By continuously catalyzing entrepreneurial thinking, applied research, skill development, and MSME-focused policymaking, the initiative reinforces VGU's role as a leading hub for regional innovation, enterprise development, and sustainable economic transformation in India. In addition, the SIDBI Swavalamban Chair emphasizes long-term impact through mentorship, knowledge dissemination, and ecosystem-building initiatives. By engaging students, entrepreneurs, artisans, and industry experts, it fosters a strong culture of entrepreneurship and applied learning. Through continuous engagement with policymakers and financial institutions, the Chair translates research insights into scalable strategies that enhance the resilience, competitiveness, and innovation capacity of India's MSME sector.

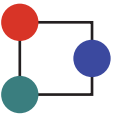

iqac cEL L

The Internal Quality Assurance Cell (IQAC) plays a pivotal role in strengthening academic quality, institutional governance, and continuous improvement across the university. Under the able guidance of Prof. Dr. Baldev Singh, during the academic session 2024–25, IQAC coordinated an intensive, inclusive, and well-structured calendar of academic, co-curricular, and developmental activities. These initiatives were strategically designed to reinforce excellence in teaching, learning, research, innovation, and student engagement, while ensuring alignment with national higher education reforms and global best practices. Over 100 structured activities were organized throughout the year, encompassing faculty development and induction programmes, national and international conferences, workshops, expert lectures, seminars, student festivals, cultural celebrations, sports events, outreach initiatives, and welfare programs. These activities witnessed active participation from all academic schools and central administrative units, significantly enriching classroom learning through experiential exposure. The platforms created by IQAC enabled meaningful interaction among students, faculty members, industry professionals, researchers, alumni, and community stakeholders, thereby strengthening academic-industry-community linkages and promoting collaborative learning. A distinctive focus of IQAC initiatives during 2024–25 was the systematic alignment of academic, co-curricular, and institutional activities with the Sustainable Development Goals (SDGs). Various programmes addressed critical themes such as quality education, health and well-being, innovation and entrepreneurship, gender

IQAC also played a vital role in enhancing institutional visibility, academic governance, and quality compliance through robust curriculum review mechanisms, the organization of the Curriculum Conclave, and the systematic conduct of the Academic and Administrative Audit (AAA). These quality assurance processes facilitated continuous improvement, accountability, and academic rigor across departments. Combined with strong national and international ranking performances, IQAC's efforts significantly contributed to academic consolidation, institutional credibility, and progressive growth at Vivekananda Global University during the academic year 2024–25. In addition, IQAC emphasized capacity building and professional development of faculty and staff to ensure sustained academic excellence. Regular faculty development programmes (FDPs), leadership training sessions, pedagogical workshops, and orientation programmes were conducted to enhance teaching competencies, assessment practices, research aptitude, and the effective use of digital tools. Special focus was given to outcome-based education, innovative teaching-learning methodologies, blended learning practices, and the integration of technology in academics, thereby equipping educators to meet evolving learner needs and global academic standards. Further, IQAC strengthened student support systems and inclusive practices across the university through mentoring, counselling, career guidance, skill enhancement, and entrepreneurship initiatives. Active student participation in cultural, technical, sports, and social activities was encouraged to nurture leadership, teamwork, creativity, and ethical values.

IQAC CELL

The Administration forms the backbone of the university's academic, research, and operational excellence. Guided by the principles of transparency, efficiency, accountability, and ethical governance, the administrative framework ensures smooth institutional functioning, regulatory compliance, and effective coordination across all academic and non-academic units. The administration plays a critical role in translating the university's vision, mission, and strategic goals into actionable policies, structured procedures, and sustainable institutional practices that support long-term growth and quality enhancement. VGU's administrative system is comprehensively structured to support key functional areas include academic administration, human resources, finance and accounts, admissions, examinations, student affairs, estate and infrastructure management, information technology, and statutory and regulatory compliance. By adopting streamlined workflows and digital integration, the administration facilitates timely decision-making, accurate record-keeping, transparent communication, and responsive service delivery for students, faculty members, and staff. Robust systems ensure efficiency in admissions, examinations, payroll, procurement, and student support contributing to a seamless university experience. A strong emphasis is placed on stakeholder engagement, coordination, and service excellence. Administrative teams work in close collaboration with academic departments, research centres, quality assurance units, and industry partners to support academic initiatives, research activities, and institutional processes.

Committed to ethical governance, inclusivity, and institutional sustainability, the Administration of VGU fosters a professional, transparent, and student-centric environment. Its proactive approach strengthens operational efficiency, supports academic innovation, and ensures compliance with national and international standards. The administration actively supports quality assurance, accreditation, and ranking-related activities by providing timely data, documentation, and inter-departmental coordination. It plays a vital role in facilitating internal and external audits, compliance reporting, and the effective implementation of recommendations from statutory bodies and quality agencies. By maintaining robust information systems and standardized operating procedures, the administrative framework ensures accuracy, consistency, and transparency in institutional reporting, thereby strengthening the university's credibility and national and international standing. Furthermore, the administration emphasizes campus safety, sustainability, and employee well-being as integral components of institutional excellence. Initiatives related to green campus practices, energy conservation, waste management, digital governance, health and safety, and staff welfare contribute to a responsible and supportive work and learning environment. Through responsive grievance redressal mechanisms, inclusive policies, and continuous stakeholder engagement, the administration reinforces a culture of trust, collaboration, and continuous improvement, enabling the university to effectively meet future challenges and opportunities in higher education.

VGU ADMINISTRATION CELL

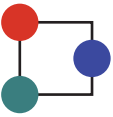

Students Welfare Cell

The Student Welfare Cell plays a vital role in nurturing a safe, inclusive, and vibrant campus environment. Throughout the academic year, the Cell actively supported academic, cultural, and social initiatives, working as a bridge between students and the administration. Its efforts focused on enhancing student engagement, well-being, and holistic development across diverse domains. The Cell, led by Prof. Dr. Pramod Faujdar, has organized and coordinated several national, cultural, and awareness programmes, including Anti-Ragging Awareness, Janmashtami, Gandhi Jayanti, Hindi Diwas, National Unity Day, and Constitution Day. These observances promoted values of safety, respect, cultural pride, national unity, and responsible citizenship, encouraging students to engage meaningfully with India's social and constitutional ethos.

Student participation at inter-university and national platforms was another major highlight. VGU students represented their university at events, participated in activities such as Shark Tank, earning recognition for their talent, creativity, innovation, and teamwork. On campus, large-scale cultural and youth-centric events like SPIC MACAY performances, Mood Indigo eliminations, College Rivals, Rangtaali, and Gulabi Nagri enriched campus life. Beyond events, the Student Welfare Cell addressed student concerns, facilitated communication, and supported community-oriented initiatives. Through consistent engagement, awareness drives, and service-oriented activities, the Cell continues to strengthen trust, leadership values, and a positive campus culture aligned with VGU's vision of holistic education.

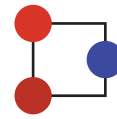

The Human Resource Cell plays a crucial role in strengthening the institution's efficiency through systematic workforce management and policy implementation. During the year, the HR Cell successfully ensured timely hiring and onboarding of staff across departments by introducing centralized trackers for interviews, and selections. Standardized formats for offer letters, appointment letters, job descriptions, and appraisal documentation enhanced uniformity and compliance. A major focus area was digitization and process streamlining. The HR Cell undertook scanning and organized maintenance of employee records, improved filing systems, and strengthened data security by ensuring the use of official email accounts of ex-employees. Onboarding processes enhanced, with the HR Cell taking responsibility for ERP profile creation and biometric registration on the day of joining, ensuring a seamless experience.

The HR Cell also contributed to capacity building through diversity enhancement. Faculty diversity showed increased representation from outside Rajasthan and a higher proportion of female faculty members. Training initiatives such as Excel Training, ERP Training, and Faculty Induction Programs conducted in support of professional development. The HR Cell also coordinated the 100th Anniversary Day celebrations, supported picnics, and implemented new HR policy, the Cell continues to ensure effective implementation and compliance, fostering a transparent, inclusive, and employee-centric work environment at VGU.

Human Resource Cell

The Women Development Cell (WDC) of Vivekananda Global University is committed to promoting gender equality, empowerment, and a safe, inclusive campus environment for women students and employees. Functioning as a proactive support and advocacy body, the Cell works to create leadership roles within the university, strengthen confidence, and encourage active participation of able

convenership of Dr. Shalini Dixit, the Women Development Cell organizes awareness pro

grammes, workshops, and interactive sessions focusing on women's

rights, health, safety, legal literacy, and personal development. These

initiatives aim to sensitize the university community toward gender-related

issues and foster mutual respect, dignity, and equality across campus

The Cell actively observes significant occasions such as International Women's Day, health awareness drives, and self-development programmes that highlight women's achievements and capacity building activities. WDC encourages women to build resilience, leadership skills, and self-confidence, enabling them to balance academic, professional, and personal responsibilities effectively.

Beyond awareness, the Women Development Cell acts as a support system by facilitating dialogue, addressing concerns, and collaborating with institutional bodies to ensure a safe and supportive campus environment, endowment, equity, and holistic growth. VGU's

Projects of

Expansion of the Academic Block

Establishment of Smart Classrooms

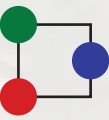

Renovation of Students' Canteen

While the right wings of the newly constructed 3rd and 4th floors of the Academic Block have been completed, construction on the left wings is progressing at a rapid pace. The entire construction up to the 6th floor is expected to be completed by March 2026. With the completion of the right wings, our infrastructure inventory has been augmented with 26 additional teaching spaces, significantly enhancing classroom capacity and supporting the institution's growing academic and pedagogical requirements, while also improving space utilization, scheduling flexibility, and the overall learning environment for students and faculty alike.

In our continuous endeavour to create an interactive and technology-driven learning environment, nine additional fully air-conditioned Smart Classrooms have been established across the campus. Each classroom is equipped with a UPS-backed interactive panel, high-quality speakers and amplifiers, lapel microphones, and high-speed internet connectivity to ensure effective teaching-learning processes. These modern facilities promote innovative pedagogical practices, enhance student engagement, and improve overall content delivery while supporting blended and digital learning initiatives.

The Students' Canteen, a favourite hub for relaxation and social interaction, has been fully renovated to enhance comfort and ambience for students and staff. With a seating capacity of about 200, it now offers an expanded menu featuring a range of bakery items and fast-food options, all prepared with high standards of quality and service, ensuring hygiene, affordability, and timely service, while providing a pleasant space that encourages informal interaction and refreshment during academic hours and promotes overall student well-being and campus life. The renovated facility also supports extended operating hours to cater to diverse student schedules.

LEGACY

Setting-Up of a High-Tech Computer Centre

To strengthen digital learning and computational capabilities, a state-of-the-art Computer Centre comprising 242 workstations has been established in the Administrative Block. The Centre houses five Computer Labs, each equipped with high-end desktops and ergonomic furniture to ensure a comfortable and efficient learning experience. These facilities support academic instruction, practical training, and research activities across disciplines. High-speed network connectivity, updated software resources, and reliable power backup further enhance functionality, enabling students and faculty to engage effectively in programming, data analysis, simulations, and other technology-enabled learning activities. The Computer Centre also facilitates online examinations, collaborative projects, virtual classrooms, and continuous skill development aligned with emerging industry and academic requirements.

Modernisation of the Admission Cell

To efficiently handle the growing influx of prospective students, the Admission Cell has been fully renovated. The upgraded facility now includes 19 modern glass cabins, each fitted with contemporary amenities to provide a seamless admission experience. The renovated space ensures privacy, transparency, and smooth coordination between applicants and staff. Improved layout and digital infrastructure enable faster processing of inquiries, documentation, and counselling sessions. The enhanced environment reflects the institution's commitment to professionalism, student-centric services, and efficient administrative operations during peak admission periods. Additionally, the redesigned Admission Cell promotes accessibility, organized workflow management, reduced waiting times, and a welcoming atmosphere that builds confidence among prospective students and parents.

Projects of

Development of a State-of-the-Art Fitness Centre.

A new, high-end Fitness Centre equipped with the latest gym equipment has been established to promote health and wellness among students and staff. The facility includes an Olympic Multi Bench, Seated Calf, Multi-Functional Trainer with Smith Machine, Leg Press,

Inner/Outer Thigh, Lat Pull Down/Low Row, Leg Curl, Multi Chest Press, Pec Fly, Commercial Ab Coaster, Commercial Air Bike, Commercial Cross Trainer, and Curved Treadmill, among other advanced machines.

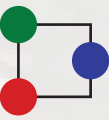

The centre provides a safe, well-maintained environment that encourages regular physical activity, stress management, and overall well-being. The facility fosters discipline, energy, resilience, and healthy lifestyles, enhancing productivity, focus, and long-term wellness.

Construction of Students' Mess Annexe

Continuing our commitment to offering a diverse, nutritious, and satisfying dining experience, a new Mess Annexe with a seating capacity for 450 additional students has been constructed. With this expansion, the dining facility can now serve approximately 1,500 students, faculty, and staff simultaneously through multiple food counters, ensuring comfort and efficiency during meal hours. The upgraded facility supports improved crowd management, hygienic food service, and smoother operations, contributing to a pleasant dining atmosphere and meeting the growing needs of the campus community. The Mess Annexe enhances meal accessibility, reduces waiting time, and ensures consistent food quality for everyone.

LEGACY

Creation of Additional Faculty Staff Rooms

To meet the growing demand for faculty seating spaces, two new Faculty Staff Rooms have been developed in the Academic Block, featuring well-designed workstations and a pleasant, productivity-enhancing ambience. These rooms provide adequate seating, proper lighting, and comfortable furnishings to support academic work, preparation, and collaboration. The facilities encourage interaction among faculty members while also offering a quiet environment for focused tasks. This initiative reflects the institution's commitment to improving faculty infrastructure and creating a supportive work environment that enhances teaching effectiveness and academic excellence.

Major Facelift of Main Entrance Gate (Gate No 2).

The Main Entrance Gate (Gate No. 2) has undergone a complete redesign and aesthetic upgrade to facilitate smooth and efficient entry and exit for students, faculty, and staff. Adjacent to the main gate, an elegant waiting-cum-interaction lounge has also been created, providing a comfortable space for visitors and campus members alike. The upgraded entrance enhances campus security, improves traffic management, and creates a welcoming first impression. The lounge offers seating and basic amenities, supporting brief meetings and visitor convenience, while reflecting the institution's commitment to accessibility, safety, and a positive campus experience.

Establishment of Nescafé Coffee Café

A modern Nescafé Coffee Café has been established on campus, offering a variety of freshly brewed beverages in a vibrant and welcoming setting. Designed as an ideal spot for informal discussions and refreshing breaks, the café combines affordability, hygiene, and quality to deliver an enjoyable experience for students and staff alike. The space features comfortable seating and efficient service, encouraging social interaction and relaxation. It serves as a popular gathering point that enhances campus life and supports a balanced academic environment, fostering creativity, collaboration, and meaningful engagement beyond formal classroom spaces.

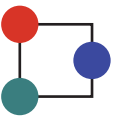

Placements

The Memorandum of Understanding (MOU) is entered into by and between Washington University of Science and Technology, USA, and Vivekananda Global University, India. This agreement reflects the mutual intent of both institutions to strengthen international academic cooperation and to promote meaningful engagement in higher education across national boundaries. The primary objective of this MOU is to establish and collaborate on an effective Research-Teaching relationship. Through this partnership, both universities aim to enhance the quality of education and research by sharing knowledge, academic resources, and best practices. The collaboration is expected to foster innovation and encourage interdisciplinary approaches to teaching and learning.

Under this agreement, the institutions may work together on joint research projects, academic programs, curriculum development, and scholarly publications. Opportunities for faculty interaction, professional development, and collaborative supervision of research activities will also be explored to support academic excellence. Furthermore, the MOU seeks to promote global understanding by encouraging faculty and student exchange programs. Such initiatives will provide participants with international exposure, cultural awareness, and academic enrichment, thereby contributing to the overall development of students and strengthening long-term institutional relationships between the two universities.

The University of South Carolina Beaufort, USA, and Vivekananda Global University, India, have signed this Memorandum of Understanding (MOU) to explore the possibility of establishing a collaborative academic relationship. This agreement represents a shared commitment to strengthening international cooperation in higher education and fostering meaningful global engagement between the two institutions. A key focus of this MOU is the advancement of a strong Research-Teaching relationship. By integrating research activities with teaching practices, both universities aim to enhance academic quality, promote innovation, and create a dynamic learning environment. The collaboration is intended to support research-led teaching approaches while enriching classroom instruction through knowledge creation.

The agreement also provides opportunities for joint research initiatives, academic programs, curriculum development, and scholarly exchange. Faculty members from both institutions may collaborate on research projects, publications, seminars, and workshops, thereby contributing to professional growth and academic excellence. In addition, the MOU encourages faculty and student exchange programs to promote global understanding and cultural awareness. These exchanges will allow participants to gain international exposure, broaden perspectives, and develop cross-cultural competencies, ultimately strengthening institutional ties and preparing students for global academic and professional environments.
