PREFACE

1. At VGU, when not engaged in academics, students immerse themselves in pursuing their hobbies and interests through various on-campus clubs. These clubs provide students with a multitude of opportunities to contribute and enrich their campus experience culturally and intellectually. Ranging from music, dance, theatre, gaming, community engagement, creative writing, photography, and much more, students can choose from the array of existing clubs on campus or even initiate their own!
2. At VGU, clubs are entities that design their own leadership structure and modes of functioning. A 'Club' is a focused group working towards a specific field of interest.
3. The aim of publishing this e-brochure on VGU's diverse Club Landscape is to provide students with a deeper insight into the mission statements of each club, highlighting their goals, values, and purpose. It will be updated annually, well before the commencement of the new academic year, allowing new students to align with these clubs based on their true calling. This will help the clubs showcase their inner strength and highlight the benefits of joining, such as skill development, networking opportunities, and personal growth.
4. These clubs have ample opportunities to showcase their talents during various university events or by participating in rural/urban outreach programs. Therefore, they are expected to be very proactive in community programming to sustain their "active" status.

From celebrating with orphaned children to organizing self-defence sessions for women and leading awareness drives, I saw the power of small efforts in creating real change. It showed me that leadership goes beyond books - it's a journey of heart, hope, and impact. I didn't do a lot - just initiated little things with big hopes, wishing they continue to grow in the long run. And in serving others, I found myself."

Introduction.

(a) Providing education to underprivileged children is not just a service - it's a step toward creating a more equitable and empowered society. Many support staff and workers in and around our college lack the means to educate their children, leaving them vulnerable to a cycle of poverty and illiteracy. Recognizing this urgent need, **Swaruchi Kendra Club** has taken the initiative to offer free, quality primary education to these children.

(b) Our program goes beyond basic literacy by nurturing essential life skills, building confidence, and encouraging creativity. From reading and writing to public speaking, arts, crafts, and yoga - we aim to create a joyful and holistic learning environment.
