Brief Report

The Department of Life Sciences, VGU, Jaipur conducted a seminar on “Use of Software to Detect Plagiarism”. Dr. Kamalendra Awasthi explained the plagiarism policy and discussed the consequences of violating the same. He emphasized on the need for strict adherence to the policy both by staff and students to enhance academic honesty and integrity. He explained various

similarity detecting tools for checking manuscripts by students and research scholars. Prof. Y. K. Vijay, President, VGU explained about internet-based plagiarism detection softwares available. Both the presentations were very informative and was followed by questions from the participants.
