Two Days Workshop on "IBM-AMOS Model"

Date: January 10-11, 2020
Venue: Seminar Hall, First Floor VGU

Student Coordinator: Kishan

Brief Report

A two-day workshop on "IBM- AMOS Model" was organized by the Department of Management. The workshop focused on understanding of "IBM- AMOS Model" which is

a powerful structural equation modeling (SEM) software and helps in supporting research and theories by extending standard multivariate analysis methods, including regression, factor analysis, correlation and analysis of variance. During the workshop, research scholars learned about building attitudinal and behavioral models reflecting complex relationships more accurately than with standard multivariate statistics techniques using an intuitive graphical and programmatic user interface.

Conclusion

This workshop helped the research scholars to understand the IBM - AMOS Model and its practical utility in quality research. The model and software utility was explained through numerous examples and activities during the workshop. Research scholars attended the workshop with keen interest.
