Facilitation of the Guest

Speaker session

## Brief Report

A session on Intellectual Property (IP) by Prof. Dilip Sharma, Professor, MNIT Jaipur was for students and faculty members. Prof. Dilip Sharma elaborately outlined the importance of IPR in

today's environment. He spoke on the need to know about IPR as the definition of assets has grown from material to non-material. In general, Intellectual Property Rights (IPRs) are concerned with the protection of tangible and intangible property. It provides material awards and recognition to the inventors and contributors for their investment. Hence, it enhances motivation to disseminate scientific and technological information which in turn stimulates research and development for improvement of the quality of life.

**Topics covered:**

- Introduction of Intellectual Property Rights.
- Law governing IP Meaning
- Types of IP a. Patent b. Trademark c. Copyright
- Infringement

**Conclusion**

The workshop concluded with an interactive question answer session. The lecture was very informative and useful as most of the faculty members were unaware of this IPR procedure of filing patents. VGU proposes to organize more programmes on IPR especially patents, trademarks registrations and copyright law as awareness on these areas is mandatory for a successful career both for individuals and the organizations.
