

WORKSHOP ON OPPORTUNITIES IN CEMENT INDUSTRY

Date: 18/09/2019

Organizing Department: Department of Civil Engineering

Mode: Offline

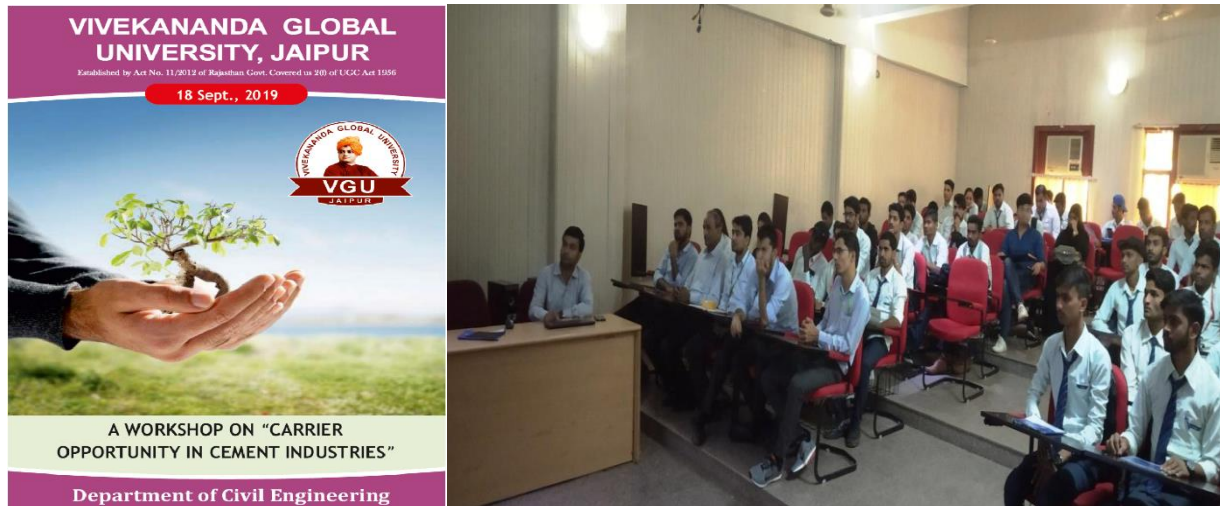

No. of Participants: 40

Duration of Event: 10:15 am - 11:15 am

Resource Person: Mr. Kapil Mishra - JK Lakshmi Cement, Jaipur

Coordinator Name: Mr. Mahendra Kumar

Event Venue: Seminar Hall, VGU, Jaipur

Participants in the workshop on opportunity in Cement Industries

Brief Report

The students were educated by Mr. Kapil Mishra on various career opportunities in the cement industry. With growth in the infrastructure and technological projects, there has been a rise in the cement industries in the country. This has led to high growth of jobs in the cement industry and more and more people are opting for jobs in various companies in this field to start a wonderful career.

The workshop imparted skills in cement manufacturing process. The students were informed about the different tests conducted on cement and basics in concrete technology like:

- Bogues components
- Mix designs
- Types of cements
- IS code specification for min and max content of cement

Live video of the cement manufacturing process was shown to the students by experts which enhanced their skills.

The seminar covered following topics:

- Area of civil engineering
- Recent technologies used in civil engineering
