2. Expert Session

Brief Report

The overall objective of this seminar was to give all participants skills and techniques to solve problems, determine relevant information and organize frameworks, and communicate logically to get buy-in stakeholders.

Dr. Atul Gaur in his keynote address, stressed on enhancing problem solving skills. He augmented strong logical and analytical thinking with techniques to improve creative thinking

with the help of case studies. He deliberated on the use of Mind Maps to extract concepts and multiply the number of ideas generated. He stressed upon improving teamwork, motivation and providing greater job satisfaction. This seminar was helpful for the skill development of the students.

Conclusion

By the end of this seminar, participants understood how the creative process works. Participants understood to use real-life situations tackled by a broad range of practical creative techniques which could be used in the workplace. 40 students attended the programme.
